

Coffee Crafters Artisan Roaster Comparison

Brand	Load Size (lbs)	Power	Lbs per Hour	Heat Control	Certification	Price	Shipping Included
Artisan X-e	10	electric	50-60	Yes	UL, NSF	\$11,979	No
Ashe 10 Lbs	10	electric	40	No	no UL, no NSF	\$12,890	No
Ashe 12 Lbs	12	electric	48	No	no UL, no NSF	\$14,390	No
Ashe 15 Lbs	15	electric	60	No	no UL, no NSF	\$15,890	No
Artisan 3-e	3	electric	18	Yes	UL, NSF	\$4,500*	No
Sonofresco 1 lb	1	gas	3	Yes	UL	\$4,260	No
Sonofresco 2 lb	2	gas	6	Yes	UL	\$5,260	No

 Artisan X-e has **same hourly production** as the **15 lb Ashe roaster with chaff collector** for almost \$4000 less (roasting medium roasts)

 Artisan 3-e is **3x more productive** than the **2 lb Sonofresco with vent kit** & still cost less (even with price increase!) ***You would need 3 Sonofresco's @ \$5200 each = 1 A3-e

 AX-e and the A3-e are UL & NSF approved roasters that can be used in commercial/industrial setting.

 Still most affordable/productive coffee roaster on the market today!

 **Our roasters are:**

- Easy to install
- Easy to use
- Easy to maintain
- Infinite heat control dial to have full control on temperature (vs all on/off heat)
- AX-e has green bean pre-load hopper for efficient back to back roasting

*Artisan 3-e does not include exhaust blower. Exhaust blower range from \$150-300
